

## **HADDON TOWNSHIP'S GREEN TEAM GET'S FRESH...and gives local residents plenty of food for thought!**

On Monday evening, Haddon Township residents, as well as residents from surrounding communities, came out to the Township's new Historic and Environmental Center located on E. Ormond Avenue to view *FRESH*. *FRESH* "celebrates the farmers, thinkers and business people across America who are re-inventing our food system." The film discusses the transformation of our agriculture into an industrial model, and confronts the consequences: food contamination, environmental pollution, depletion of natural resources, and morbid obesity. Forging healthier, sustainable alternatives, the film offers a practical vision for the future of our food and our planet. The viewing of *FRESH*, was presented by the Township's Sustainable Jersey Green Team. After the film, residents engaged in thoughtful discussion about the complex issues revolving around food production and consumption in the United States. LOOKING TO GET FRESH? Participants also shared the following resources:

**Westmont Farmers Market** <http://www.westmontfarmersmarket.com>

**Jennings Farm (free range cattle/chickens)** <http://jenningsfarm.webs.com>

**Organic Mt. Laurel Farm** <http://www.localharvest.org>

**Honey Brook Farm (CSA: Community Supported Agriculture)** <http://honeybrookorganicfarm.com>

**Center For Environmental Transformation** (located in S. Camden waterfront, the center focuses on environmental justice issues, grows organic food and offers numerous outreach programs. The director Andrea Ferich was recently acknowledged for her hard work this past April and awarded the EPA's Environmental Leadership Award.) <http://camdencenterfortransformation.org>
