September 1, 2010

TO: Resident of East Oakland Avenue

RE: **PROJECT STATUS**

Improvements to the Sanitary Sewer Collection System in the Bettleground Section of the Township of Haddon, Camden County, New Jersey  
(Funded through the New Jersey Department of Environmental Protection Municipal Wastewater Assistance Program, N.J.D.E.P. Project No. S340115-01 (KEI #10-1297))

Dear Resident:

Please be advised that the concrete curb crew will be mobilizing on Tuesday, September 7, 2010 to begin installing concrete curbing on the street. The contractor will begin installing the new concrete curbing on the east side of the street (even number addresses) between Johnson Avenue and the end of the roadway. We request that the residents on the east side of the street have all necessary vehicles removed from their driveways and all cars removed from the curb line so the work can be performed.

After the east side of the street is completed, the contractor will then begin work on the west side of the street (odd number addresses). If the weather cooperates, the work on the west side of the street will occur immediately after the curb on the east side of the street is completed.

This concrete curb work was previously scheduled to start on Thursday, September 2, 2010. However, due to the uncertainty of the track of Hurricane Earl, and possible rain in the forecast, we have elected to delay the work until September 7, 2010.

We will continue to keep you informed of the project status by way of these notices. This notice will also be placed on the Township website for your convenience.

We thank you for your patience during the construction and if you have any questions or comments, please do not hesitate to contact me at this office.

Sincerely,

Gregory B. Fusco, P.E., P.P., C.P.W.M.  
Certified Municipal Engineer  
Haddon Township Engineer
